Y NOT FESTIVALS UK LTD.
COOKIE NOTICE

What are Cookies?

Cookies are small text files that are placed on your computer by websites/applications that you visit. They are widely used in order to make websites work, or work more efficiently, as well as to provide us information for different purposes.

We use cookies on our websites/applications, which amongst other things, help us to improve your experience of our websites/applications and to ensure that it performs as you expect it to.

Who sets the cookies?

First-party cookies: When you visit our website, it asks your browser to store cookies on your device in order to remember information about you, such as your language preference or login information. Those cookies are set by us.

Third-party cookies: We also have cookies on our websites/applications that are set by third parties. These are cookies from a domain different than the domain of our website you are visiting. We use these third-party cookies for our advertising and marketing efforts.

Types of Cookies
We will now explain what cookies we use on our websites/applications and why we use them:

- **Strictly necessary cookies:** These cookies are fundamental in making our websites/applications work. They usually are activated in response to your actions and requests to our websites/applications, such as when you login, set privacy preferences, or fill in forms. You can block them via your browser, but some parts of our websites/applicationswill not work for you while such cookies are blocked.

- **Cookies not strictly necessary:** These cookies are not necessary for the proper functioning of our websites/applications. We collect such cookies when you consent to it. We ask for your consent in our cookie banner or in the websites/applications cookie settings, or in App permissions. Those are divided into the following subcategories:

  - **Performance cookies:** These cookies allow us to count visits and traffic sources so we can measure and improve the performance of our websites/applications. They assist us in understanding which pages are the most and least favoured, and how visitors move around the websites/applications. All information these cookies collect is aggregated and therefore anonymous. If you do not allow these

cookies we will not know when you have visited our websites/applications and will not be able to monitor its performance.

- o **Functional cookies:** These cookies enable our websites/applications to provide functionality and personalization and they allow the websites/applications to remember choices you make (such as keeping you logged in across multiple sessions) and customised preference settings (e.g. text size). Functional cookies may also include cookies that enable you to share our content with your contacts via social media platforms. They may be set by us or by third party providers whose services we have added to our websites/applications. If you do not allow these cookies, then some or all of these services may not function properly.

- o **Targeting cookies:** These cookies collect information about your browsing habits to make advertising relevant to you and your interests. They may be set through our websites/applications by our advertising partners. They may be used by those companies to build a profile of your interests and show you relevant adverts on other sites and social media. If you do not allow these cookies, you will experience less targeted advertising.

How long will cookies remain on my device?

The length of time that a cookie remains on your device depends on whether it is a "session" or "persistent" cookie.

- **Session cookies** last until you stop browsing. These are created temporarily. Once you close the browser, all session cookies are deleted.
- **Persistent cookies** last until they expire or are deleted.

Cookies we use on our website:

Cookie Name	Type	Description	Category	Duration
_wpfuuid	First Party (ynotfestival.com)	Registers a unique ID for the visitor in order for the website to recognize the visitor upon re-entry	Necessary	Persistent - 11 years

Your choice

We must get your consent to drop cookies to your computer or mobile device unless the cookies are strictly necessary to provide services to you or the applicable laws allow otherwise. When our cookies collect Personal Data, we will process this data according our Privacy Notice.

We use the strictly necessary cookies to ensure that you get the most out of our Platform. Absolutely necessary cookies are the ones that enable you to navigate through our Platform and use its features. Without these cookies, you would not be able to check out any Event tickets in your basket.

Only if you consent, we will use the abovementioned Non-Strictly Necessary Cookies.

If you decline, a single cookie will be used in your browser to remember your preference not to be tracked.

Unless the cookie is a strictly necessary cookie, you can withdraw your consent to our cookies at any time even if you have previously consented. Please be aware that when you withhold your consent, this does not automatically delete any cookies that are already on your device pursuant to your previous consent. You will need to delete these cookies manually by following the instructions on your web browser and/or device.

How can you change your cookie settings?

You can manage your cookie settings at any time, by selecting «Customise/Manage your Cookies» in the Cookie Banner or through our Cookie Settings or Cookie icon/footer. *(https://ynotfestival.com/)*

You can also manage website cookies in your browser settings, and you always have the choice to change these settings by accepting, rejecting, or deleting cookies. All browser settings are slightly different, so to manage cookies, you should refer to the relevant settings within your browser. To find out more about cookies, including how to see what cookies have been set,
visit www.aboutcookies.org or www.allaboutcookies.org.

If you choose to change your settings, you may find that certain functions and features will not work as intended on the Services.

Find out how to manage cookies on popular browsers:

- [Google Chrome](#)
- [Microsoft Edge](#)
- [Mozilla Firefox](#)
- [Microsoft Internet Explorer](#)
- [Opera](#)
- [Apple Safari](#)

To find information relating to other browsers, visit the browser developer's website.

To opt out of being tracked by Google Analytics across all websites, visit http://tools.google.com/dlpage/gaoptout.

Changes to our Cookie Notice

We may make changes to this Cookie Notice from time to time. We will post any changes to our Platform or notify you of any material changes by e-mail. Any changes will come into effect the next time you engage with us after the changes have been notified. The current Cookie Notice was last modified on 10th June 2025
